

voestalpine Wire Technology: reliable partner of the automotive industry

Our pre-materials fulfill high-quality requirements in multiple component parts.

① Engine / Valve / Gearbox

- Rollers for roller-type cam follower
- Valve clearance regulation
- Tappets
- Retainers
- Valve Cotteners
- Shaft for the transmission
- Stopelement
- Shaft for turbo charger
- Safety ring / snap ring for the transmission respectively powertrain
- Sliding sleeve inside the transmission
- Camshaft phaser
- Timing chain
- Compression nuts
- Spark plug electrode wire
- Automatic gearbox profiles
- Spark plug bodies
- Oil pressure gauge housing
- Extension, compression and recoil springs
- Injection unit part
- Cylinder head

② Connector- and suspension systems

- Transverse control arm
- Coupling bar
- Ball joints and carriere joints
- Torque roll restrictor
- Tie rod
- Track rod

③ Brake systems

- Brake hose connector
- Parts for ABS (e.g. Pole core)
- A ball-screw drive for an electrical parking system on the brake calliper
- Guide pin for brake caliper

④ Safety belt systems

- Belt retractor/pretensioner (pinion, torsion bar)
- Components for belt tensioning systems
- Components for seat height adjusters
- Components for occupant restraint systems
- Components for airbagsystem Pressure vessel, housing

Other specific components

- ⑤ Bonnet springs
- ⑥ Hose clamp screws
- ⑦ Bowden braided cable
- ⑧ King pin bolts
- ⑨ Steel cord for car tyres
- ⑩ Wheel nuts
- ⑪ Shock absorber springs bolts
- ⑫ Shock absorber rods
- ⑬ Windscreen wiper wire
- ⑭ Flat spiral spring for seat adjustment
- ⑮ Windscreen wiper springs
- ⑯ Cardan universal joint for gear shifts
- ⑰ Wires for sheathing of Bowden cables
- ⑱ Tyre wire
- ⑲ Door hinge bolts
- ⑳ Window winding mechanism parts
- ㉑ Electric window motor spindle
- ㉒ Steering wheel rim
- ㉓ Headrest bars
- ㉔ Car seat cushion springs
- ㉕ Door lock deadlock mechanism release
- ㉖ Fixing Screws
- ㉗ Ball/roller bearings
- ㉘ Self-tapping screws
- ㉙ Boot lid springs
- ㉚ Towing eye
