

Lasting Connections

INVERTERS FOR ARC WELDING

CORE TERRA URANOS

LASTING CONNECTIONS

As a pioneer in innovative welding consumables, Böhler Welding offers a unique product portfolio for joint welding worldwide. More than 2000 products are adapted continuously to the current industry specifications and customer requirements, certified by well-respected institutes and thus approved for the most demanding welding applications.

Our customers benefit from a partner with

- » the highest expertise in joining, rendering the best application support globally available
- » specialized and best in class product solutions for their local and global challenges
- » an absolute focus on customer needs and their success
- » a worldwide presence through factories, offices and distributors

CORE TERRA URANOS

THE NEW REFERENCE IN WELDING MACHINES

You've taken on the challenge of joining materials made of metal. You know how to weld structures for bridges, machines and power stations. In your job you don't need "one" solution, you deserve the best.

As a provider of welding solutions, we offer a unique portfolio of high-quality welding consumables, application services, accessories and welding equipment. With our product lines, we are setting new standards in all standard

and special welding processes. The combination of welding filler metal and power source, which is unique in the industry and based on our application know-how, takes precision to a new dimension.

This allows you to obtain TOP CLASS welded joints that you will be proud of. This is what we stand for - with up to 5 years warranty on all our welding equipment.

Advantages for our customers:

- » Böhler Welding combines metallurgical know-how, technical competence and a complete product range like no other supplier on the market.
- » Welding consumable and welding machine meet in a perfect synergy for all customers of Böhler Welding.
- » Optimised performance curves lead to first-class welding results.
- » Böhler welding machines made in Europe guarantee the highest quality of products and services.
- » We stand by our quality promise and provide up to 5 years warranty.
- » Our customers can always rely on a trusting partnership and lasting relationships.

INVERTER TECHNOLOGY

The key component of our welding power sources is a reliable and high-performing inverter.

This modern and technically advanced inverter offers unbeatable long run performance and reliability. Customers particularly appreciate those advantages when it comes to arc control, adaptability to different processes and applications, accuracy and repeatability.

CORE GO WELD IT

MIG/MAG STANDARD

Designed for amazing welding performance

- » Particularly efficient MIG/MAG standard process for extremely precise welds
- » Enables very homogeneous and clean metallurgical properties
- » Very stable and perfectly controllable electric arc
- » High welding speed and melting capacity

TERRA MX 320 SMC

34,0 kg

MIG/MAG PULSE

Perfect welding results thanks to "Digital Drop"

- » Enables optimum MIG/MAG pulse welding with consistent and reproducible performance thanks to new welding technology
- » Extremely stable and concentrated arc
- » Simple parameter control for efficient work

TERRA MX 320 PMC

MULTIPROCESS

Up to any welding task

- » Ideal for MMA, MIG/MAG pulse and TIG DC welding process
- » Designed to handle a wide range of welding tasks
- » Developed to meet the highest demands with regard to flexibility and performance
- » Perfect for repair and maintenance as well as training facilities

CORE 185 TIG

185 A @ 25%

10,3 kg

TIG DC

The precision arc

- » Highly concentrated and stable electric arc
- » Aesthetically perfect welding seams
- » Optimum welding conditions in all working situations

TIG AC/DC

Best in class

- » Guaranteed concentrated and stable arc
- » Reduced heat input
- » High-quality weld seam and considerable increase in productivity with only one set value

MMA

Light and flexible

- » Very compact and powerful inverter
- » Suitable for cellulose
- » Intuitive operation
- » Generator safe

CORE – GO WELD IT

Ergonomic & Smart

CORE power sources are portable, durable and resilient. Due to the hybrid composite and galvanized steel frame CORE machines are for the toughest job sites. The ergonomic and sturdy handle and shoulder strap makes CORE ready to weld anywhere.

What CORE are all about:

- » Superior Arc Performance in all different welding processes for perfect welds any time
- » Adjustable Hot Start and Arc Force functions ensure smooth arc starts and prevent electrode sticking
- » Expansive high-contrast display to ensure an optimal user interface
- » Auto Power Line Adaption (115/230V)
- » Cool-Air management (Wind tunnel design), ensures optimal performance

TERRA – GET THE JOB DONE

Robust & User-Friendly

TERRA power sources from Böhler Welding are available for MMA welding, TIG DC and MIG/MAG processes. The compact and robust design of the machines allows them to be used in a wide variety of working environments, even in confined spaces.

TERRA welding machines from Böhler Welding thrive under heavy use and guarantee durable connections.

What TERRA are all about:

- » Simple operation for the welder
- » Low weight
- » Ideal for steel and stainless steel
- » Flexibly deployable
- » Suitable for use on construction sites and fabrication shops

URANOS – FOR THE HIGHEST DEMANDS

Efficiency & Technological Excellence

URANOS welding inverter are equipped with the latest and most advanced welding functionalities. They incorporate the latest control systems developed and patented by Böhler Welding in order to guarantee excellent performance levels. Advanced ergonomics, some of the lowest weights in their class, and robust covers and panels make URANOS particularly portable, extremely reliable and ideal for open air welding and maintenance and repair operations in general.

What URANOS are all about:

- » Very compact and powerful inverter
- » Low weight
- » Highest level of IP safety in outdoor use, even in bad weather
- » Flexibly deployable
- » URANOS can be equipped with many accessories, including a complete range of remote controls

JOIN! We connect Metals and People

We are a leader in the welding industry with over 100 years of experience, more than 50 subsidiaries and more than 4,000 distribution partners around the world. Our extensive product portfolio and welding expertise combined with our global presence guarantees we are close when you need us. Having a profound understanding of your needs enables us to solve your demanding challenges with Full Welding Solutions - perfectly synchronized and as unique as your company.

Lasting Connections – Perfect alignment of welding machines, consumables and technologies combined with our renowned application and process know-how provide the best result for your requirements: A true and proven connection between people, products and technologies. The result is what we promise: The Perfect Weld Seam for Lasting Connections.

Tailor-Made Protectivity™ – Proven under the toughest conditions: Our products protect metal surfaces from wear and corrosion. With over 70 years of experience and the broadest product portfolio in the industry, we are your preferred partner for Surface Protection solutions. We deliver what we promise: Surface Protection tailored to your needs.

Brazing Perfection – As a manufacturer of brazing consumables engineered in Germany, we offer proven solutions based on over 65 years of industry experience. Our comprehensive process-understanding and application know-how, combined with innovation strength and a strong customer focus, makes us the preferred international partner for brazing. We meet complex requirements with individually tailored strategies – precise, efficient and solution-oriented. The result is what we promise: Brazing Perfection.

The Management System of voestalpine Böhler Welding Group GmbH, Peter-Mueller-Strasse 14-14a, 40469 Duesseldorf, Germany has been approved by Lloyd's Register Quality Assurance to: ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007, applicable to: Development, Manufacturing and Supply of Welding and Brazing Consumables.
