

ADJUSTABLE ANGLE GUIDE PLATE WFP ADJ

02-2026/V1

Description

The adjustable angle guide Wfp ADJ is designed to adjust the rail gauge without exchanging the angle guide plate.

Furthermore it positions the rail clip correctly and ensures electrical insulation.

Material

The adjustable angle guide plate Wfp ADJ is manufactured from PA6GF30.

Technical aspects of adjustable angle guide plate Wfp ADJ

- » Moisture Content – 1.00 - 2.50 % in weight
- » Carbon Black Content – 0.50 and 1,0 %
- » Impact Strength – $\geq 40 \text{ kJ/m}^2$ according to EN ISO 1791 eU
- » Gauge adjustment without exchange – $\pm 10 \text{ mm}$ ($\pm 5 \text{ mm}$ per rail)
- » Specific volume resistivity – $\geq 10^8 \Omega\text{cm}$
- » Suitable for standard sleeper
